89 / 100 Speed

! Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- https://static.doubleclick.net/instream/ad_status.js (15 minutes)
- <https://maps.googleapis.com/maps/api/js?sensor=false> (30 minutes)
- <https://www.google-analytics.com/analytics.js> (2 hours)

Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

[Minify JavaScript](#) for the following resources to reduce their size by 8KiB (32% reduction).

- Minifying <https://www.metrolocksmithdc.com/javascript/owl.carousel.js> could save 5.8KiB (34% reduction) after compression.
- Minifying <https://www.metrolocksmithdc.com/javascript/main.js> could save 1.2KiB (24% reduction) after compression.
- Minifying <https://www.metrolocksmithdc.com/javascript/jquery-countTo.js> could save 396B (44% reduction) after compression.
- Minifying <https://www.metrolocksmithdc.com/javascript/parallax.js> could save 373B (47% reduction) after compression.
- Minifying <https://www.metrolocksmithdc.com/javascript/jquery.easing.js> could save 211B (21% reduction) after compression.
- Minifying <https://www.metrolocksmithdc.com/javascript/jquery.cookie.js> could save 110B (19% reduction) after compression.

Prioritize visible content

Your page requires additional network round trips to render the above-the-fold content. For best performance, reduce the amount of HTML needed to render above-the-fold content.

80.6KiB of the HTML response was required to render the above-the-fold content. This requires 3 network round-trips. [Prioritize the above-the-fold content](#) so that it can be rendered with only the first 2 round-trips' worth of HTML.

- Only about 50% of the final above-the-fold content could be rendered with the HTML delivered within 2 round-trips.
- Click to see the screenshot with 2 round trips: [snapshot:2](#)

 5 Passed Rules

Avoid plugins

Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of [avoiding plugins](#).

Configure the viewport

Your page specifies a viewport matching the device's size, which allows it to render properly on all devices. Learn more about [configuring viewports](#).

Size content to viewport

The contents of your page fit within the viewport. Learn more about [sizing content to the viewport](#).

Size tap targets appropriately

All of your page's links/buttons are large enough for a user to easily tap on a touchscreen. Learn more about [sizing tap targets appropriately](#).

Use legible font sizes

The text on your page is legible. Learn more about [using legible font sizes](#).
