### Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

Eliminate render-blocking JavaScript and CSS in above-the-fold content

## Mobile

Your page has 3 blocking script resources and 4 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

### [Remove render-blocking JavaScript:](#)

- <http://zwzpirek.pl/scripts/jquery-1.6.1.min.js>
- <http://zwzpirek.pl/scripts/jquery.prettyPhoto.js>
- <http://zwzpirek.pl/nivo-slider/jquery.nivo.slider.pack.js>

### [Optimize CSS Delivery](#) of the following:

- <http://zwzpirek.pl/nivo-slider/nivo-slider.css>
- <http://zwzpirek.pl/css/prettyPhoto.css>

## Optimize images

Properly formatting and compressing images can save many bytes of data.

### [Optimize the following images](#) to reduce their size by 116.8KiB (39% reduction).

### Should Fix:

## Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

## Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Strona główna and 5 others render only 7 pixels tall (18 CSS pixels) final.
- Witamy na naszej stronie and 1 others render only 7 pixels tall (18 CSS pixels) final.
- Prace drogowe and 2 others render only 5 pixels tall (12 CSS pixels) final.
- Istniejemy na...isane w dziale and 5 others render only 5 pixels tall (12 CSS pixels) final.
- ZWZ PIREK video nr 1 and 3 others render only 5 pixels tall (12 CSS pixels) final.
- from renders only 5 pixels tall (13 CSS pixels) final.

## Mobile

- Jarek Marczyk renders only 5 pixels tall (13 CSS pixels) final.

- OK, Rozumiem renders only 5 pixels tall (13 CSS pixels) final.
- Na tej stronie...go urzędzenia. renders only 5 pixels tall (14 CSS pixels) final.

### Consider Fixing:

#### Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 1,012 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element `<div class="nivo-slice">` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `<ul>Strona główna...Kontakt</ul>` falls outside the viewport.
- The element `<div class="right">Witamy na nasz...czyk on Vimeo.</div>` falls outside the viewport.
- The element `<div>Copyright by w...a zastrzeżone.</div>` falls outside the viewport.

#### Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

## Mobile

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `<a href="https://vimeo.com/190392446">ZWZ PIREK video nr 1</a>` is close to 1 other tap targets final.
- The tap target `<a href="https://vimeo.com/user47713910">Jarek Marczyk</a>` is close to 1 other tap targets final.
